Colourful

world of gemstones
and jewellery

Some of the best creative talent in the jewellery industry have once again outdone themselves in the 2014 edition of the JMA International Jewelry Design Competition. Organised by the Hong Kong Jewelry Manufacturers' Association (HKJMA) and *Hong Kong Jewelry Express*, the contest serves as a vital platform for young designers and established jewellery manufacturers to interact, exchange ideas and turn design concepts into spectacular works of art.

Working around the theme "Colourful," the competition drew 250 entries, 60 percent of which were from overseas. Ultimately, 14 designs made it to the finals. Bringing these creative ideas to life were some of the most well-known jewellery manufacturers in the region.

The "Graceful Phoenix" brooch took home the Champion and Best Craftsmanship Awards. Manufactured by Dai Sun Jewellery Co Ltd, the brooch is embellished with diamonds, sapphires, rubies, green garnets and mother-of-pearl shells in 18-karat rose gold. The Phoenix wing is detachable and may be worn as an individual earring.

Here are the outstanding entries in the 2014 JMA International Jewelry Design Competition.
